

Lynne Hayes

Innovation Product Manager
Honeywell Intelligrated, Inc.

Lynne Hayes serves as the Innovation Product Manager for Honeywell Intelligrated, Inc., a leading North American-based, single-source provider of automated material handling solutions and intelligent software. Honeywell Intelligrated is housed within the Safety and Productivity Solutions business group of Honeywell, a Fortune 100 company.

Leveraging more than a decade of collaborative and practical experience working within non-profit, privately held, and Fortune 100 companies, Lynne joined Honeywell Intelligrated (formerly Intelligrated) in 2013 to pioneer and lead the Innovation movement and cultural adoption within the organization, which has received global best practice accolades by Honeywell.

Lynne obtained her Bachelor’s degree as a graduate of Morehead State University, augmented by executive professional development from University of Kentucky, Bellarmine University, and Spaulding University. She is an active collaborator within the regional Innovation community, serving as member of the Cincinnati Innovation Round Table; and other philanthropic organizations such as Girls Who Code, American Heart Association, Make A Wish, and Girls on the Run.
