ABOUT OUR EVENTS

Board Briefings are select, invitation-only events designed to give International Associates an opportunity to meet with Board researchers and economists and to learn, first-hand, cutting-edge business practices and the changing economic environment from a global perspective.

The **Council** programs provide you with a high-level networking forum in your management area across industries. Only Corporate Associates are eligible to apply for membership. Each Council meets regularly to share management strategies, discuss common challenges and exchange solutions.

Council Briefings are small, intimate executive meetings where Council members and selected guests hear presentations from The Conference Board program directors and invited subject-matter experts on hot topics, new research, survey findings and areas of shared interest. Held over lunch or dinner, these briefings promote knowledge exchange, discussion and informal networking.

You and your colleagues will receive significant discounts to attend any of our **Conferences**, executive seminars, workshops and forums. Participating in conferences will give you the opportunity to network with your peers and the chance to hear practical business experiences rather than theory.
