Xiaoqin Li

Associate Economist

The Conference Board China Center for Economics and Business

xiaoqin.li@conference-board.org

Xiaoqin Li is Associate Economist for The Conference Board China Center for Economics and Business. Her research focuses on the measurement of productivity in China and analysis of the industrial sector, with a particular focus on the implications of Input-Output table accounting. She also conducts research on the China consumer market. She received her PhD in Management and Economics from Beihang University.

Her research with The Conference Board include contributions to the research of *The Advent of China's 'One Child Boomers'*, *Assessing Trends in the "Rate of Return to Education" in China*, the *China Productivity Quarterly*, and several contributions to *The Conference Board China Center Chart of the Week* series.
