

Alan Mulally

President and CEO
Ford Motor Company

Alan Roger Mulally (born August 4, 1945) is an American aerospace engineer and manufacturing executive. He is the former President and Chief Executive Officer of the Ford Motor Company. He retired from Ford Motor Company on July 1, 2014. Ford had been struggling during the late-2000s recession, returned to profitability under Mulally, and was the only American major car manufacturer to avoid a bailout fund provided by the government. Mulally's achievements at Ford are chronicled in the book *American Icon: Alan Mulally and the Fight to Save Ford Motor Company* by Bryce G. Hoffman, published in 2012. On July 15, 2014, he was appointed to the Board of Directors of Google.

Mulally was the executive vice president of Boeing and the CEO of Boeing Commercial Airplanes (BCA). He began his career with Boeing as an engineer in 1969 and was largely credited with BCA's resurgence against Airbus in the mid-2000s. In 2015, Mulally was inducted into the International Air & Space Hall of Fame at the San Diego Air & Space Museum.
