

Christian Kromme

International Futurist & AI Visionary
Senior Fellow, ESF Center, Europe
The Conference Board

Christian Kromme is an innovative tech entrepreneur with a clear vision that is inspired by nature. About 15 years ago he discovered the pattern/algorithm behind the evolution of biological and technological ecosystems, and how to predict and surf the next big wave of organizational and societal disruption.

Now Christian is a much-in-demand international futurist keynote speaker, speaking in front of tens of thousands of entrepreneurs, business leaders, and policymakers in more than 40 countries. Christian speaks about the radical impact of disruptive technologies on humans and organizations and how to build agile and purpose-driven eco-systems. The main reason why organizations book Christian is because of his unique nature-inspired vision and human-centered approach.
