

## Carrie Nichol

Controller  
Cargill

Carrie currently serves as VP & Controller of Cargill since December of 2021, currently overseeing the Company's Controllershship, Financial Reporting, Technical Accounting, and Financial Operations. In addition, she also leads Cargill Finance's Process, Data and Technology organization as well as Cargill Business Services. Prior to Cargill, Carrie served as the Chief Accounting Officer & Controller of public life science companies Zimmer Biomet and Endo Pharmaceuticals, leading their finance and accounting teams as well as leading several finance transformation initiatives. Prior to Endo, Carrie served as Senior Vice President and Controller of Haas Group Inc. (now part of Inco, inc.) from June 2011 until March 2015 where she led the global accounting and finance teams. Prior to her employment with Haas Group Inc., Carrie was with IKON Office Solutions (now part of Ricoh Company, Ltd.) for a total of five years leading their Financial Reporting and Corporate Accounting. From December 2005 until June 2008, Carrie was with Advanced Metallurgical Group NV serving as Assistant Controller. Carrie began her career in public accounting with KPMG LLP. She is a licensed certified public accountant (inactive) and holds a Bachelor of Science degree in Business Management, with a minor in Accounting, from Widener University and an MBA in Finance from Villanova University.
