

## Stephan A. Tarnutzer

President  
AVL Mobility Technologies

Stephan A. Tarnutzer is the President of AVL Mobility Technologies, part of AVL GmbH one of the largest mobility technology solutions companies in the world, and is responsible for overseeing and developing its business units and functional areas, including technologies for traditional and xEV powertrain, xEV and battery component and systems as well as ADAS and Autonomous technologies and solutions. In addition, Mr. Tarnutzer is responsible for hydrogen and fuel cell technologies, vehicle development, software, simulation, driveability, and validation domains.

Mr. Tarnutzer joined AVL in November 2018 as the President for the mobility technology side of AVL. Prior to working at AVL, Mr. Tarnutzer held several engineering leadership positions with various suppliers as well as Daimler Chrysler. His diverse educational background in electrical engineering, economics, finance, and management has enabled his technical, strategic and financial leadership through his entire career.
