

Karen Silverman

CEO and Founder
The Cantellus Group

Karen is a leading global expert in practical governance strategies for AI and other frontier technologies. She advises Fortune 50 companies, startups, consortia and the public sector on how to manage AI and other cutting-edge technologies in rapidly changing technology and policy environments. Karen was a partner at Latham & Watkins, LLP for over 20 years, where she advised global businesses on complex antitrust matters, M&A, governance, and crisis management.

Karen serves on the ABA Task Force on the Law and Artificial Intelligence, was a World Economic Forum Global Innovator and a member of their Experts Network and an SME to the Business Roundtable. She sits on the Fast Company Impact Council and serves on the board of AIEDU and Not For Sale and sits on the Advisory Board of Legal Momentum. She is a frequent speaker and author on technology and corporate governance issues.?
