

## Michael E. Carroll

Vice President of Innovation  
Georgia Pacific

Mike is an outstanding executive in the industry, celebrated for his diverse expertise spanning chemical to AI applications. He has notably advanced the field of manufacturing excellence and product innovation. His groundbreaking efforts in extending Generative AI through to Automated Reasoning and Special Purpose Intelligence were so impactful that they led the International Data Corporation (IDC) to create a new category, 'Deep Automation.' Mike is admired for his leadership, innovative thinking, and ability to enact organizational change with intellectual honesty. As a pivotal figure in industrial transformation, he excels at guiding companies to become 'Limitless Enterprises,' leveraging the organization's full potential to generate substantially more value.

### **Honors & Awards:**

- Visionary of the Year, Smart Industry, 2020
- Innovator of the Year, Association of Suppliers to the Paper Industry, 2019
- Author of numerous published articles and a highly requested keynote speaker

Overall, Mike is recognized as a pioneering and visionary leader in Agentic AI and his industry. His extensive experience in fostering innovation, transformation, and profitability in top companies, along with his groundbreaking work in AI and Deep Automation, have earned him widespread acclaim. His dedication to developing "Limitless Enterprises" using marks him as an influential and successful figure in his field.
