

Sara Mahini

Senior Associate, Lab Delivery, Innovation Lab
KPMG US

Sara Mahini's career blends a passion for technology with business strategy, focusing on Artificial Intelligence (AI), Advanced Analytics, and Data Strategy integration. Currently an Innovation Consultant at KPMG, Sara leads workshops using design thinking methodologies to collaborate with clients on how to integrate new technologies across their businesses. She has advised both large enterprises and startups on optimizing technology capabilities to enhance operational performance. She is dedicated to guiding companies through complex technology transformations to achieve their strategic goals. Sara holds an MBA from New York University and is an active career mentor for college women in STEM.
