

## Terri Peterfeso

Principal, Risk Management, AI & Data  
KPMG US

Terri Peterfeso has over 20 years of experience providing risk management, advisory, and attestation services at KPMG. In her current role as a Principal in Risk Management, Terri leads a talented team dedicated to identifying, evaluating, and mitigating technology, data, and AI risks. Their goal is to help business counterparts navigate unique challenges, manage risks through transformation, and achieve strategic priorities.

Throughout her career at KPMG, Terri has held various roles, including creating a firm-wide Intellectual Property Management function to protect KPMG's valuable technology assets, specializing in technology risk management services for advisory clients, and serving on KPMG's global compliance team, assessing the systems of internal control in over 35 global KPMG firms.
