

## Aisha Tahirkheli

Managing Director, Trusted AI  
KPMG US

Aisha Tahirkheli is a technology executive with 20+ years of Big 4 consulting experience in helping clients craft a case for change, turn complex ideas into achievable plans, mobilize agile teams to get the job done, and leverage modern technology to turn vision into reality. She presently serves as a Managing Director for Trusted AI in the AI and Digital Innovation group at KPMG. Her experience spans multiple industries in the areas of End-to-End Cloud Transformation, Trusted AI, Digital Transformation, IT Strategy and Program/Portfolio and Project Management. Aisha earned her Bachelors in Psychology from Northwestern University and holds certifications in Microsoft Azure, Google Cloud and SAFe Agile.

She is passionate about developing innovative solutions to solve my clients' toughest challenges and mentoring the next generation of women leaders in technology. She balances her client responsibilities with my leadership roles in the areas of DEI and philanthropy. She currently serves as a Diversity, Equity and Inclusion (DEI) champion for KPMG's Technology Enablement practice, is the company's executive sponsor for Break Through Tech (non-profit organization aiming to increase gender diversity in tech), and is also a steering committee leader for KPMG's Women in Consulting community and on the board at the St. Mark's School of Texas.
