In 2009 she implemented *On Your Side in Action*, from the CEO kick-off to all 33,000 associates in online programs.

Previously, she served for 11 years as the Director of Product Design and Delivery for Dale Carnegie Training. Molly developed curriculum for Dale Carnegie Training core products, like Leadership Training for Managers, in addition to fully customized training solutions for Fortune 500 clients. One primary belief that is core to everything she does is the belief that **People support a world they help create**. The key to successful strategy execution is aligning three core processes: the people, the strategy and the operations. Business needs, performance expectations and daily activities must be AlignED to maximize profit and grow potential.

Molly will join us as the moderator for this webcast, to set the stage for our conversation about building an OED function and change capability for the future.
