**Keynote Session: Corporate Citizenship Professionals Moving Forward in 2021**

The pandemic exposed the inequity and disparities in healthcare, housing, income inequality, and lack of access to education, transportation, and economics, particularly among Latinx, Black, and Native American communities who have been hit the hardest. The death of George Floyd accelerated the response by companies to make commitments to racial justice and equity.

What’s the role business and Corporate Citizenship can and should be playing to help close the gaps? How do we maintain transparency around the inequities, keeping it at the forefront for actionable solutions? This keynote session will discuss post-COVID-19, post-demonstrations of when people go back to their “new normal”?

Keynote Speaker:
**Lisa Hamilton**, President and CEO, **Annie E. Casey Foundation**

**Curated reflections and Closing**
