

News Release

Jonathan Liu (732) 991-1754 / jonathan.liu@tcb.org

For Release 9:00 AM ET, July 22, 2026

Using the Composite Indexes: *The Leading Economic Index (LEI) provides an early indication of significant turning points in the business cycle and where the economy is heading in the near term. The Coincident Economic Index (CEI) provides an indication of the current state of the economy. Additional details are below.*

The Conference Board Leading Economic Index® (LEI) for India Remained Unchanged in June

The Conference Board Leading Economic Index® (LEI) for India remained unchanged in June 2026 at 187.3 (2016=100), after rising by 0.4% in May. The LEI expanded by 2.1% over H1 of 2026, a slower rate compared to the 3.7% growth observed over H2 of 2025.

The Conference Board Coincident Economic Index® (CEI) for India increased by 2.5% in June 2026 to 188.9 (2016=100), after growing by 1.2% in May. As a result, the CEI rose by 6.5% over H1 of 2026, a slower rate compared to the 9.1% growth observed over H2 of 2025.

The next release is scheduled for Monday, August 24, 2026, at 9 A.M. ET.

The India LEI Remained Unchanged in June

Expanded bank credit to the commercial sector and a widening interest rate spread were offset by a decline in merchandise exports and soft expectations from services business

The Conference Board Leading Economic Index® and Component Contributions (Percent)

Source: The Conference Board

** Statistical Imputation.

LEI change might not equal sum of its contributions due to application of trend adjustment factor

The LEI annual growth rate decreased slightly but continues to remain positive, indicating growth in 2026

About The Conference Board *Leading Economic Index*® (LEI) and *Coincident Economic Index*® (CEI) for India

The composite economic indexes are key elements in an analytic system designed to signal peaks and troughs in the business cycle. Comprised of multiple independent indicators, the indexes are constructed to summarize and reveal common turning points in the economy in a clearer and more convincing manner than any individual component.

The CEI reflects current economic conditions and is highly correlated with real GDP. The LEI is a predictive tool that anticipates—or “leads”—turning points in the business cycle by around eight months.

The eight components of the *Leading Economic Index*® for India are:

- Interest Rate Spread
- BSE: Index: Monthly Average: SENSEX
- REER: 40 Currencies
- M3: Bank Credit to Commercial Sector
- Merchandise Exports (deflated by Wholesale Price Index)
- Cargo Handled
- Industrial Production: Capital Goods
- India PMI: Services Business Activity

The three components of the *Coincident Economic Index*® for India are:

- Industrial Production
- Total Imports (deflated by Wholesale Price Index)
- Vehicle Sales, Passenger Vehicles
