

## Securing Cyber Infrastructure

*Updated 23 May 2023*

## Securing America's Infrastructure

### SOLUTIONS FOR AN ERA OF EVOLVING CYBER THREATS

#### Increase collaboration

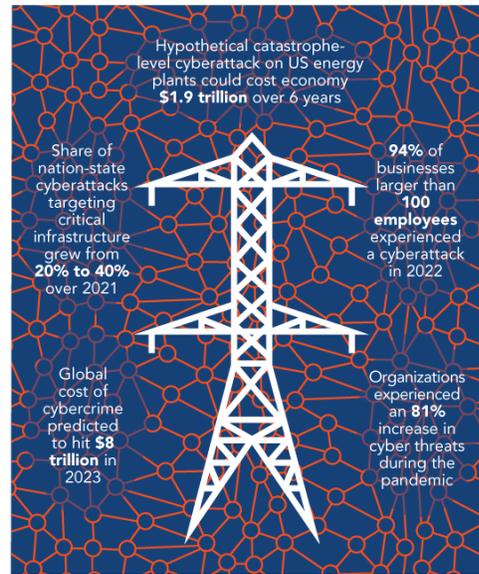

- Update and strengthen CISA's\* role as national cyber coordinator.
- Implement and harmonize cyber incident reporting standards.
- Require updates to sector plans to shorten remedial time and review supply chains of critical sectors.
- Partner with allies on international cyber norms.

#### Strengthen resiliency

- Fund implementation of the National Cybersecurity Strategy.
- Expand cyber resources to smaller firms.
- Define systemically important entities.
- Develop minimum cyber standards for critical sectors; encourage broader private-sector adoption and collaboration.
- Boost research funding and assess AI use in critical systems.
- Invest in building a cybersecurity workforce.
